Food Security Situation*

- More than 100,000 registered Somali refugees are living in Yemen, which strains the already insufficient resources of this least-developed country. Somali refugees have been arriving in Yemen since civil war erupted in Somalia some 20 years ago.
- Yemen is also dealing with a humanitarian problem in northwestern Yemen, where an ongoing conflict has caused the internal displacement of approximately 160,000 people are being impacted by the conflict.

CIA Factbook. June 26, 2009
